

HCV EPaCCS DataSet – Read2, CTV3 and SNOMED CT Clinical terms

This document lists all the fields that are used in the Humber, Coast and Vale EPaCCS form. It also shows their Read 2, CTV3 and SNOMED CT clinical codes and those fields that are mandatory.

Where possible, fields are pre-populated from the patient's GP practice record on first creation of the record. These are highlighted in yellow in the tables below.

LEGEND

Import = if clinical term is in the patient record (and is a one to one map i.e. exactly the same rubric and codes) it will be imported into the EPaCCS record

Import each time = import data from record and update each time EPaCCS record is opened in the practice e.g. medications

Export = if added or amended in the EPaCCS record export to patient record

Mandatory = On creation of the EPaCCS record, users are guided through the mandatory fields. [If they are not completed you will see an error message]

Section	Field	Clinical terms	Import	Export	Mandatory
Informing the patient that EPaCCS will be shared, viewed and amended	Patient has been informed EPaCCS will be shared				Yes
	Best interests decision taken (Mental Capacity Act 2005) for sharing EPaCCS; informing patient not possible				Yes
	Appointed lasting power of attorney informed EPaCCS will be shared				Yes

Section	Field	Clinical terms	Import	Export	Mandatory
EPaCCS	Date form created				
	Created on				
	Last amended by: of:				
	Date of next review				

Section	Field	Clinical terms	Import	Export	Mandatory
Patient details	Forename				
	Preferred name				
	Surname				
	NHS number				
	Date of Birth				
	Gender				
	Home address				
	Home telephone				
	Mobile				
	Email				
	Usual address if different				
	Patient lives alone	Read 2 13Fc. SNOMED 105529008 CTV3 XM0Ct	On creation	Export if added/amended	
	Patient lives with next of kin

CPR decision	Is CPR in place?				
	For attempted cardiopulmonary resuscitation	READ2 1R00. SNOMED 450475007 CTV3 XaZVX	On creation	Export if added/amended	Yes
	Not for cardiopulmonary resuscitation	READ2 1R10. SNOMED 450476008 CTV3 XaZ9c	On creation	Export if added/amended	Yes
	Is the patient aware?				
	Yes				
	No				
	Unsure				
	Reason pt is not aware of CPR decision				
	Patient does not have capacity				
	Harmful to patient				
	Is the family aware?				
	Yes				
	No				
	Unsure if family is aware of CPR decision				
	No family				
	Reason family are not aware of CPR decision				
	Patient request				
	Awaiting discussion				
	Not possible – awaiting to contact family				
	Is main carer aware?				
	Yes				
	No				
	Unsure				

Section	Field	Clinical terms	Import	Export	Mandatory
CPR decision (cont.)	Does this patient have a ReSPECT form?				
	Yes	SNOMED 1107891000000106 ¹	On creation	Export if added/amended	
	No				
	Where is ReSPECT form located?				
	Does patient have a Yorkshire and Humber DNACPR form?				
	Yes				
	No				
	Not applicable				
	Location of document				
	Date CPR decision made				
	CPR review				
	To remain valid until end of life				
	Valid until change in care setting				
	Review if clinical condition warrants				
	CPR decision to be reviewed by:				

¹ SNOMED CT = Has Recommended Summary Plan for Emergency Care and Treatment

Section	Field	Clinical terms	Import	Export	Mandatory
Functional status, disability and communication	Modified Karnofsky Performance Scale				
	100% - Normal; no complaints or evidence of disease				
	90% - Able to carry on normal activity; minor signs of symptoms of disease				
	80% - Normal activity with effort; some signs or symptoms of disease				
	70% - Cares for self; unable to carry on normal activity or to do active work				
	60% - Able to care for most needs; but requires occasional assistance				
	50% - Requires considerable assistance and frequent medical care				
	40% - In bed more than 50% of the time				
	30% - Almost completely bedfast				
	20% - Totally bedfast and requiring nursing care by professionals and/or family				
	10% - Comatose or barely arousable				
	Date of modified Karnofsky Performance Scale assessment
